PROFESSIONAL SUMMARY

Full Stack Developer with 3+ years building Geospatial SaaS. Specialising in Angular, C# .NET, and AI-driven workflows.

EXPERIENCE

Software Engineer - Fixed term

November 2025 – February 2026

Trimble Inc.

Christchurch, NZ

- Spearheaded cross-application deliverables to deliver a complex multi-platform workflow under the Geospatial Field Systems division.
- Performed an end-to-end audit to improve application performance, optimizing synchronous API calls and implementing batched pagination for large geospatial feature dataset based app operations.
- Optimized large geospatial databases by implementing indexing strategies, significantly reducing query latency for spatial data visualization.
- Designed and developed an interactive user onboarding and migration experience for a geospatial platform workflow to improve feature usability and user experience.
- Collaborated on building a FastAPI based system utilizing RAG and MCP tools to translate natural language queries into API calls, enabling automated retrieval of historical field collection data within the map application.

Software Developer

July 2022 – May 2025

Trimble Inc.

Chennai, India

- Developed new features from design to code and resolved critical bugs in a customer facing Angular, .NET web application project.
- Maintained primary responsibility for the front-end repository, ensuring good code quality through rigorous peer reviews and scalability standards.
- Expanded the Leaflet.js library to support highly customizable and dynamic map icons, to provide meaningful geospatial feature visualization capabilities.
- Performed routine Angular version updates, ensuring compatibility, security and performance improvements.
- Achieved a 30% increase in unit test code coverage and expanded on automated e2e testing scripts using Cypress.
- Created automated AI workflows by integrating Model Context Protocol (MCP) agents and Retrieval Augmented Generation (RAG) to enhance application workflows and user experience.
- Consistently met release deadlines and exceeded performance expectations in a multi national team environment.

EDUCATION

University of Waikato

Hamilton, NZ

Masters in Information Technology

2025 – 2026

SCT College of Engineering

Kerala, India

Bachelor of Technology in Computer Science and Engineering

2018 – 2022

CERTIFICATIONS

Azure Fundamentals (AZ-900) | *Microsoft*

January 2024

Foundational C# with Microsoft | *freeCodeCamp.org*

April 2024

TECHNICAL SKILLS

Frameworks: Angular, React, RxJs, TypeScript, Leaflet.js, Jasmine-Karma, Cypress, ASP.NET, LESS CSS, FastAPI(Python), Node Js

AI/Automation: MCP Agents, RAG Workflows, Prompt Engineering, Cursor AI and GitHub CoPilot

Tools/Software: Angular CLI, Visual Studio, VS Code, Jenkins, Octopus Deploy, JIRA, Bitbucket, Datadog, Sumo Logic

Technical: REST API, Cloud Technologies (AWS/Azure), Agile, Unit Testing, Docker, CI/CD, Machine Learning, ArcGIS Pro,
